

S.S. "GOWRIE".

The following alterations have now been carried out:-

1. The fore and afters on all except the deep tank hatches have been dispensed with and in lieu of these, the hatch web beams have been renewed and re-arranged, (Particulars of which are given on attached fly sheet.
2. The 6" diameter ventilator on the forecastle deck have been closed by steel plates welded around circumference.
3. The freeing port area on each side of the forward well and raised quarter deck have now been raised to $12\frac{1}{4}$ and $16\frac{3}{4}$ sq. ft. respectively.
