# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

ENCLOSURE.

27th December, 1934.

Dear Sirs,

With reference to your letter of the 19th instant respecting the s.s. "JAMESON", I have to say that your remarks regarding the Gotaverken Exhaust Turbo Compressor being fitted on this vessel are noted, and that the proposal to fit this turbo-compressor will be approved, provided the work be carried out to the Surveyors' entire satisfaction.

I may add that a communication has been received from the Gothenburg Surveyors stating that this turbo-compressor has been partly built under their survey, but that the casing has not been examined and tested by hydraulic pressure by them. It has, however, been tested and examined by the Norwegian Veritas Surveyors and stamped.

This turbo-compressor has been accepted in this instance, and the N.V. report is enclosed for your information and should be attached to the report on the case.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

AMSTERDAM.

P.S. The plans and description forwarded by you have been noted.
