

s.s. "HARFERY".

Certificate issued 31.5.32 valid until 28.2.33
- expiration of year of grace S.S.No.2.

The Hull Surveyors wrote on the 29th December that the Owners proposed to complete the Special Survey before the end of this month. The vessel was recently under survey at Rouen on account of damage and the Surveyor recommended repairs on arrival in the U.K. The vessel arrived at Goole on the 8th instant.

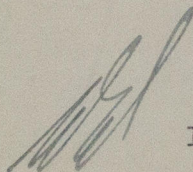

It is submitted the Hull Surveyors be informed that the Convention freeboard certificate issued for this ship expires on the 28th instant.

It is noted that it is the Owners' intention to complete the S.S. No.2 before the end of this month.

They should verify the freeboard marking and forward the usual verification of marking form to this Office when the survey is nearing completion, together with a statement that the conditions of assignment are still complied with, in order that new certificates valid for a period of five years may be issued.

No fee should be charged in this instance.

The Hull Surveyors should advise the Owners in regard to the Renewal Survey.

15.2.33.
