

WWh8-0230

ARD REPORT on the Cammell Laird & Co. No 995.

This submitted the builders be informed with reference to the note in the owner's letter of 9th inst. copy of which was forwarded with their letter of 12th inst. "Such as will with 50% deck erection obtain a summer load draught of 30 ft." that the freeboard to be assigned will be that intimated in the Secretary's letter of 5th inst. Subject to the provisions contained therein. From this it would appear that the extreme summer draught will be slightly under 30 feet.
