Dear Sirs, 60 lb. per sq. inch.

E.

I duly received your letter of the 19th instant enclosing two plans of the press boilers in the steamer "KOSMOS", and with regard thereto I have to acquaint you that the scantlings of the whale oil boilers shown on these plans are considered satisfactory for a working pressure of 60 lb. per sq. inch.

It is noted that all the whale oil boilers have been surveyed and it is concluded that the scantlings have been found to be in accordance with the plans, but I shall be glad if you will confirm this.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
GÖTHENBURG.
