Enclosure.

Dear Sirs,

I duly received your letter of the 10th instant respecting the alterations effected to four grax boilers on board the Steamer "KOSMOS", and in reply have to acquaint you that these alterations, as shewn on the plan forwarded, are considered satisfactory for the working pressure of 60 lb. per square inch, provided you are able to satisfy yourselves by examination of the boilers that the welding and other details of the alterations are efficient.

I have to add it is concluded that all the press boilers of this vessel are at present under survey, or that arrangements have been made for these to be surveyed at an early date. I have to point out that, for the purpose of record in this Office, it is desired that any identification marks stamped on the boilers, or any other particulars which would enable the boilers to be identified with plans which have previously been approved, should be forwarded to this Office.

If it is found, however, that the press boilers were not constructed under the Society's special survey, it will

Gothenburg Surveyors be informed that it is necessary for full details of the scantlings to be forwarded.

One copy of the sketch forwarded by you is returned herewith.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

Gothenburg.

It should be pointed out that for the purpose of record in this Office, it is desired that any identification marks stamped on the boilers, or any other particulars which would enable the boilers to be identified with plans which have previously been approved, should be forwarded to this Office.

If it is found, however, that the press boilers were not constructed under the Society's special survey, it will be necessary for full details of the scantlings to be forwarded.
