

(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes: ...

URGENT.

Whale Oil Factory "KOSMOS".

It is submitted the Gothenburg Surveyors be informed that the alterations effected to four of the press boilers on this vessel, as shewn on the plan forwarded, are considered satisfactory for the working pressure of 60 lb. per square inch, provided the Surveyors are able to satisfy themselves by examination of the boilers that the welding and other details of the alterations are efficient.

The Surveyors should at the same time be informed it is concluded that all the press boilers on this vessel are at present under survey, or that arrangements have been made for these surveys to be carried out at an early date.

It should be pointed out that for the purpose of record in this Office, it is desired that any identification marks stamped on the boilers, or any other particulars which would enable the boilers to be identified with plans which have previously been approved, should be forwarded to this Office.

If it is found, however, that the press boilers were not constructed under the Society's special survey, it will be necessary for full details of the scantlings to be forwarded.
