

steam trawler "SANTA TERESINHA".

-----

It is submitted two copies of the freeboard computation and report be sent to the Lisbon Surveyor for discussion with the Technical Department of the Ministry of Marine.

It is considered that in order to comply with the Convention requirements efficient means of closing should be provided for the air pipes.

The certificate and three copies should also be sent to the Surveyor for transmission to the Portuguese Authorities for their endorsement, and for issue when the condition of assignment has been complied with. He should ~~also~~ be requested to insert particulars of tonnage and the dates of issue and expiry in the appropriate spaces, forwarding particulars thereof to this Office.
