

Do. above C
Engine P
Gross Ton
Less Crew &

*Now "Nova" - how Coromandel
boast.*
s.s. "LANGFJORD". 964 tons gross.

This vessel has recently been completed on the Clyde, and First Entry reports have been forwarded from Glasgow.

The vessel was launched on the 25th March, 1921, and in accordance with Paragraph 7, Page 10, of the General Regulations, the date of build for vessels ^{not} exceeding 10,000 tons gross should be not later than six months after the date of launch.

The above vessel was surveyed in dry dock on the 20th December, 1921, and the bottom found in order and coated, and the Glasgow Committee recommend for the consideration of the General Committee that the date of build be recorded as December, 1921, the completion of the ship having been delayed by the Joiners' Strike.

This recommendation is concurred in.

5th January, 1922.
