71, Fenchurch Street, E.C. 3.

RPH

25th February, 1924.

Dear Sirs,

With reference to your first entry report No. 6737 of survey of the steamer "SCOTIA", I have to request that you will be good enough to advise me by telegram whether cargo battens have been fitted in the holds, as the report is not clear on this point.

In confirming your telegram, you should state whether the inner surfaces of the shell plating in the boiler room tank and the other double bottom tanks have been cemented.

I am, Dear Sirs,  
Yours faithfully,

Assistant to the Secretary.

The Surveyors,

COPENHAGEN.
