LONDON

Dear Sir,

With reference to your letter of the 3rd instant regarding the pumping arrangements of the above named vessel, I have to acquaint you that the Local Manager called at this Office today and stated he is prepared to make the necessary alterations requested, to fit wing bilge suction in No.1 Hold.

He asked whether in the special conditions of freightage at present the Committee would give special consideration to the case and allow him to carry out the job in August when the vessel will be stopped and drydocked for fitting the new screw shaft.

I am, Dear Sir,

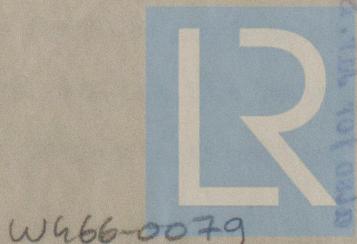

Yours faithfully,

The Secretary.

Trade waxes wet

Wise men say that the best way to get rid of bad thoughts is to replace them with good ones. This is easier said than done, however. When we are faced with negative thoughts, it's natural to want to push them away. But this only strengthens them over time. Instead, try to embrace these thoughts as opportunities for growth and learning. By acknowledging them and addressing their root causes, you can gradually shift your perspective and develop a more positive outlook.

The role of the state in the development of the economy

With the exception of some letters to the friends, Jesus' messages were addressed to the public, and he spoke to them as he would to his own people. I have to confess that I have never seen any book which contains so many words of wisdom.
