Spencer
Dear Sirs,

S.S. "Doric Star".

We are investigating proposals affecting this vessel on behalf of the owners, Messrs. Blue Star Line Ltd., with a view to increasing speed, etc., involving the fitting of a "Maier" Form bow.

This alteration will increase the waterline length by about 18' as indicated on attached sketch, and we should be glad if you would let us have the favour of an early reply as to what increase, if any, in equipment would be approved in the event of this alteration being carried out.

The new structure would have scantlings as in the adjacent structure. No general topside strengthening would be contemplated and the owners would be prepared to accept whatever increase in the existing freeboard would be necessary for the increased length.

Yours faithfully,
For the Company,
