Survey Due 4th Special Survey N°2 due 4,28.

This case last received the consideration of the Committee on the 29th June last when they agreed to the above survey being postponed for a short time as it was understood that the vessel would shortly arrive at Bilbao where she would be laid up.

On the 23rd July the Bilbao Surveyors stated that the vessel was then laid up at that port for an indefinite period and that they had been informed that the Superintendent was of the opinion that in all probability she would be converted into a coal-hulk or broken up.
