

2. s.s. "CABO CULLERA".

The Bilbao Surveyors now write as follows:-

"We have received a letter from the Owners in which they state that this vessel is laid up for an indefinite period and consequently they do not contemplate carrying out the survey unless the vessel should be required, and they indicate that they ~~are~~ prepared to relinquish the Class of this vessel should it be necessary".

*Submitted action be  
deferred until the vessel  
is laid up.*

*In view of the age of the  
vessel the Special Survey  
now due should be held  
before the vessel is again  
placed in Commission*

*M.S.  
10/9/28*
