Enclosure.

6th April 1926.

Dear Sirs,

M With reference to your letter of the 26th ultimo regarding the new reciprocating machinery to be fitted on board the S.S. "ALFONSO PEREZ", I have to point out that there is no definite information on the approved plans concerning the construction of the double bottom in way of the engine seating, and it will be necessary for you to see that the double bottom in way of the new machinery is strengthened locally and made thoroughly efficient to your satisfaction.

The plan of cast iron stool under bed plate is returned herewith, and provided the arrangements be carried out as shewn on the plan and to your satisfaction they will be approved.

The First Entry Report and plans returned for reference with your letter of the 31st ultimo are being sent back to you under separate cover.

I am, Dear Sirs,
Yours faithfully,
