of Casualty

Particulars of Casualty This vessel has been laid up for some considerable time pending a decision as to her future.

There are a considerable number of indented plates as well as some leakage in the cargo tanks, and a proposal to issue an Interim Certificate for a voyage in ballast and in tow to another port to be broken up was agreed to, provided the vessel be examined in drydock and any necessary repairs effected.

The Oslo Surveyors now write that the vessel has been sold to Belgium for breaking up purposes and that the new Owners will tow her at the beginning of this week.

As no survey has been held, the Surveyors recommend that the vessel's class be expunged from the Register Book.

The year of grace expired in March, 1938.
