 Carrying Whale Oil in bulk.
 Survey Due Starboard Screwshaft Survey due 9,31.

A Special Survey No.3 has been carried out on the hull of this vessel and partly held on the machinery.

The vessel will be eligible for the record of LMC 5,30 when the pumping arrangements, the fuel storage and daily service tanks have been examined, and a proposal to complete this inspection on her return from the whaling grounds in the Autumn was agreed to by the Committee in May last.

In reply to enquiry regarding the survey of the starboard screwshaft the Oslo Surveyors state that this will

be done during the Winter.
