LONDON

Dear Sir,

The repairers of the motor vessel "GROSHOLM" Messrs, Moss Verft & Dokk A/S, state that a boiler, intended to be used as a donkey boiler, has been purchased from the Stavanger Shipbreaking Company. They state that it belonged to the steamer "BANIA", which has been broken up.

They desire to be supplied, if possible, with a plan of this boiler and we shall accordingly be glad to be informed whether you can furnish them with such a plan.

We are, Dear Sir,

Yours faithfully
The Supervisors
