

PUMPING ARRANGEMENT Endorsement.

Shipbuilders: Messrs. *Deutsche Werft*

Yard No. *201/4*

Engineers: Messrs. "

Engine No.

Owners: Messrs. *"Carrying Petroleum in Bulk"*

It is submitted that the plan of *Oil Fuel*
Burning
Pumping Arrangement

merits approval, provided the arrangements be as
shown ~~and amended~~ on the plan and the remaining
requirements of Sections ~~20 and 21~~ of the Rules (1937-8)

be complied with so far as they are applicable.

*With reference to the group of three valves shown
on the discharge side of the oil fuel units in way
of the boiler front it appears that one valve is
connected to the discharge to burner or range, the
second valve is the circulating suction from this
range but the purpose of the third valve is
not clear & should be stated.*
