Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

11th February, 1927.

Dear Sirs,

I am in receipt of your freeboard report on the S.S. "SIMON BOLIVAR", from which it is noted that a number of openings are fitted in the vessel's sides forward between the upper and second decks, and that these openings are closed with portable wood shutters only.

The case will therefore fall to be dealt with as a well deck vessel, and I shall be glad if you will forward an amended report on form 11b giving the depth and all particulars regarding sheer and erections on the second deck.

At the same time you should give full particulars of freeing ports and scuppers from all spaces on this deck.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

ROTTERDAM.
