

S.S. "SIMON BOLIVAR".  
-----

Amended plans shewing extension of promenade deck aft and extension of deckhouse on this deck submitted, in triplicate, by the Amsterdam Surveyors.

It is submitted the Surveyors be informed that the scantlings and arrangements as shewn and amended will be approved, provided they be carried out to their satisfaction.

It is observed that in view of the lack of space in the cabins it is proposed to fit the stiffeners on the deckhouse sides 75 m/m in depth, instead of 90 m/m as previously required. In these circumstances reinforcement has been provided in the form of two reverse bars as shewn on the plans.

The contents of the postscript of the Surveyors' letter have been duly noted.
