

S.S. "NAIMES".

This ex-German Vessel is now being managed by Messrs. A. Weir & Co., A representative of this firm has called at this Office today and left the enclosed copy of a letter they had received regarding the Boilers of this Vessel. He pointed out that they were quite aware that several furnaces would require to be renewed in the near future; or as soon as they could obtain them, but in the meantime they wished to know whether any temporary repairs could now be carried out to enable the vessel to proceed in ballast to the Plate where she would load back to the U.K.

It is submitted the Hull Surveyors should be advised of the above and be requested to state how the matter stands.
