

Messrs. Babcock & Wilcox Boilers Nos.

Nos. 6/1107A-B-C-1108A-B-C  
-----

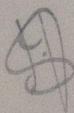

These six watertube boilers were made by Messrs. Babcock & Wilcox in 1921. The headers, mud drums and steam drums were tested by hydraulic pressure, but the tubes were only loosely fitted.

It is submitted the Leith Surveyors be informed that they will be in order in examining the boilers and issuing report on their condition on Form (Rpt.10) without making any further hydraulic test.

Messrs. D. & R.B.Scott to be advised.
