

s.s. "INCHDAIRNIE" now named "ELSA MENZELL"

Messrs. Babcock & Wilcox Ltd., have telephoned asking to be informed the name of the Surveyor who surveyed this vessel's boilers at Rotterdam in February 1929 also to be furnished with a copy of any certificate then issued.

I asked them to put their request in writing and at the same time informed them that no information could be furnished without the written consent of the Owners.

It would appear that litigation is pending between Messrs. Babcock & Wilcox Ltd., and the late Owner of the vessel Mr. J. Fletcher.

20th May, 1930.

The vessel is now under survey at Hamburg.
