

s. s. "ELSA MENZELL".

---

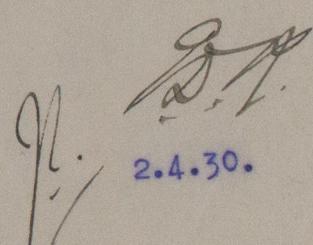

This vessel was recently under survey at Jacksonville and Savannah and the American Committee assigned a notation of \* LMC 2,30 subject to the <sup>LP</sup> eastern buckets being dealt with.

A certificate endorsed accordingly was issued to the Owners who in a letter dated the 12th ultimo stated that new turbines were installed and asked for a clean certificate.

The matter was referred to the Society's New York Surveyors who have now cabled as follows:-

"Society's Surveyor at Jacksonville states all machinery repairs satisfactorily completed clean certificate could be issued".

IT IS SUBMITTED the vessel is eligible to remain as classed without special condition and that a clean certificate be issued.

  
2.4.30.
