

W481 - 0368

s.s. "INCHDAIRINE"

Mr. Fletcher has called at this Office,
and states that this vessel is proceeding under her own steam
from Rotterdam to Antwerp, and is to be accompanied by two
tugs on account of the steam steering gear not being
in a satisfactory condition.

He states that the Underwriters wish confirmation
of the statement that the vessel will proceed under steam,
and requests that the Society's Rotterdam Surveyors might
be asked to confirm this.

It is submitted the Rotterdam Surveyors be
informed and requested to state if the vessel will steam
from their port to Antwerp, and if, in addition, arrangements
are being made for her to be accompanied by two tugs.
