1st February, 1929.

Leeuwenburg,

I shall be glad if you will let me know whether the  
in the case of the s.s. "INCHDAIRNIE" has been  
and the engines and boilers found to be to the  
satisfaction of the Society's Surveyors.

I see that the vessel has been under survey at  
but we have no report to hand yet. If the survey  
have the engines been tried under steam in  
Surveyor's presence, and has this trial been simply in  
has there been a trial atsea.

Yours faithfully,

burg, Esq.,

AMSTERDAM.
