r,

s.s. "AMALTHUS".

We have been advised by our Singapore office that this is drydocking at Hongkong and is being examined by your there for Convention freeboard.

We enclose herewith Request form 9 in connection with and have cabled our Superintendent to carry out the actions as recommended for the sister vessel "Ampullaria", completion of the receipt by us of your actual assignment recommendations.

We shall be pleased to receive these as soon as your report reaches you, and would ask you to forward the report, recommendations, and new certificates to your Surveyor, as we will no doubt take the earliest opportunity to complete the requirements (if necessary), and mark freeboard at that port when opportunity occurs.

We are,  
Yours faithfully,

THE ANGLO-SAXON PETROLEUM CO. LTD.
