Translation of

~~Extract from~~ letter dated 8th October, 1912 received from

Deutsch Amerikanische Petroleum Gesellschaft, HAMBURG.

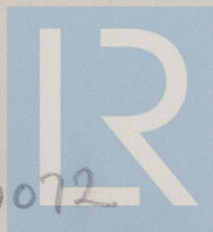

Original letter with

Vessel's Name "HERA".

You issued some time ago a temporary certificate for a period of 3 months to this steamer, as it appears that you had not been convinced that the manufacture of the stern post of the vessel completely fulfilled the requirements of the rules.

We have not had since then an opportunity to stop the "HERA" in her service and to dry dock her as we urgently need the vessel. We beg you therefore to be good enough and extend the validity of the certificate in question until the end of January next as we hope to have from now until that date an opportunity of dry docking the vessel.

In the hope of receiving a favourable reply.
