Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

enclosure.

18th June, 1932.

Dear Sir,

I am in receipt of your letter of the 17th instant enclosing a plan of the fore and aft gangways in respect of the steamer "HERA", and with regard thereto I have to inform you that the gangway could be accepted provided additional longitudinal strength is supplied by the provision of a substantial stringer angle at the top of the supports on each side of the gangway.

The plan in question is returned herewith.

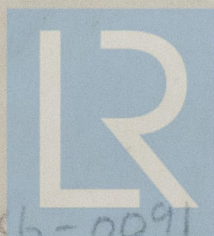

I am, Dear Sir,

Yours faithfully,

pro Secretary.

Mr. A. T. Thomas,

PLYMOUTH.
