S.S. "BULGARIAN" EX "OTTO KALTHOFF" No. 77718 IN THE  
SUPPLEMENT

---

Four watertight bulkheads only are fitted in this vessel instead of five as required by the Rules, suitable structural compensation in the form of increased strengthening to the side framing being provided.

It is submitted that, as in several previous cases, the omission of the bulkhead might be approved subject to a notation being made in the Register Book on the completion of the survey as follows:-

"Intermediate bulkhead in the forward hold  
"dispensed with; 4 B.H. only".
