# Lloyd's Register of Shipping.

Port

NEW YORK

JULY 30th, 1935.

This is to Certify that

W. BOYLAN

the undersigned Surveyor to this Society did at the request of the Owner attend on board the Italian Steamer "MONTA" 7772 gross tons of Trieste to survey the vessel for condition and freeboard for a voyage to Italy.

The vessel is in safe condition for the voyage and the following freeboards have been marked on vessel's sides and verified:-

Centre of disc to statutory deck line..	10' 6"
Maximum Lead Line in fresh water above centre of disc.	7½"
" " " Indian Seas in Summer above centre of disc . . . . .	7½"
" " " Winter below centre of disc . . .	7½"

In my opinion, the vessel may safely proceed on her intended voyage under the above freeboards until she can obtain official Freeboard Certificate from the Italian Government.

*W. Boylan*

Surveyor to Lloyd's Register of Shipping

certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—  
the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
