Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

31st March 1921.

Dear Sir,

With reference to Liverpool Report No. 82024 on the steamer "KINNAIRD HEAD", I shall be obliged if you will kindly ascertain from the Surveyors and let me know whether the thickness and riveting of the bridge sides, and the riveting of the butts of the raised quarter deck side plating and forecastle side plating are as required.

At the same time I think it well to inform you that the Owners desire to be supplied with a letter addressed to the Board of Trade, stating that the requirements of the Society's Rules as regards survey have been complied with and that it will be necessary for the First Entry fees to be paid before this information can be furnished.

I am, Dear Sir,

Yours faithfully,

The Secretary,
LIVERPOOL.

Secretary
