

... of the freeing ports are as stated on the report, viz:-
REPORT on the S.S. "Australia".

It is submitted the Newport Mon. Surveyors be informed that it is understood this vessel has returned to their port. If it is not possible to complete the reclassification survey at this time, they should state if in their opinion a freeboard certificate for a limited period of say 6 months might be issued on the form for unclassified vessels pending the completion of the survey. If so they should verify the freeboards and forward the usual verification form for the issue of certificates.

It is understood the owners have returned the previous certificate issued by the Board of Trade for cancellation.
