

S.S. "ABERCRAIG"

A telephone message has been received from Mr. Miller, of the Plymouth Office, whose district includes Appledore, stating that the above vessel which has been laid up at Appledore under an undertaking, is proceeding sometime during next week to Newport, Mon., to be broken up.

He does not know whether she is to be taken in tow or not, but he thought it advisable to let this Office know the position at once.
