Dear Mr. Hill:-

I am in receipt of your letter of the 30th ult., dealing with the reports from the American Committee of the 8th ult., and duly note your remarks.

The alteration to the Minute in the case of the s.s. "RIPOGENUS", N.Na.Rpt.No.4118, is noted and agreed to.

s.s. "ARIO", N.Yk.Rpt.No.26686. Mr. Peat informs me that the steam pipes were renewed at the time at the request of the U.S. Government Steamboat Inspectors.

s.s. "MUNOBREANS", N.Yk.Rpt.No. 26681. The question of additional support for the through beams of the second deck of this vessel was taken up with the Owners, but nothing was done at the time as they informed us this deck would be used to carry passengers only.

The necessary inquiries are being made in the remaining cases.

With kind regards.

Yours faithfully,

J. P. Hill, Esq.,

London.
