

Stl. s.s. "MUNORLEANS".
-o-o-o-o-o-o-o-o-o-

This vessel was built by Messrs. Bremer Vulkan in 1911, classed with the Germanischer Lloyd and is a sister vessel to the s.s. "Grunewald" ex "Manoa" built in 1912 and classed with this Society in 1921.

With a view to classification with this Society the New York Surveyors now forward a report giving particulars of scantlings which appear to be in order and further report the vessel placed in dry dock and the requirements of the rules for a ship not built under survey carried out.

The certificates could not be produced for the anchors and cables and the equipment has not been examined.

The Freeboard, which is a condition of the vessel's class, requires to be marked and verified.

The lower bunkers require to be scaled and coated.

It is submitted the vessel appears worthy to be classed 100 A.- "With freeboard" with record of survey 8-26 and notation of s.s. N.Yk. No.3-8-26, subject to the freeboards being marked and verified and to the lower bunkers being scaled and coated.

It is concluded the through beams of the 2nd Deck have been additionally supported a
in the S.S. MANOA but the Surveyors should be requested to state if this is so.
