# Lloyd's Register of Shipping,

Collingwood Buildings,

Newcastle-on-Tyne.

8th October, 1940.

The Surveyors,

WEST HARTLEPOOL.

Dear Sirs,

Plan No. 52217 - Main Boiler  
Replacement for s.s. "AUDACITY"  
No. 70235 in the Register Book.  
Central Marine Eng. Works'  
Boiler No. R.338.

We return herewith two copies of the above mentioned plan forwarded with your letter of the 4th instant, and with regard thereto have to inform you that the same will be approved for a working pressure of 180 lbs per square inch, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates and butt straps, viz:- 29/33 tons per square inch.

We are, Dear Sirs,  
Yours faithfully,  
THE SURVEYORS,  
per *T. D. Philston*
