Survey Due _____ Boiler Survey due 11. 30

The Owners stated in December that this vessel was due for drydocking in March, 1931 when the above survey would be held. In the circumstances the Committee agreed to this proposal.

The Owners now write that the steamer is at present laid up off Southend and that they desire to postpone the inspection for the time being.

They add that the survey will of course be effected before the "Inverglass" is again placed in commission.
