

D REPORT on the *Ex. Pennsylvania*

It is submitted an extract of particulars from the Report II C be
sent to the Newport Surveyor, who should be informed that
the vessel has not been surveyed previously for the assignment
of Convention freeboards. He should forward full particulars on
part C II for assignment as an open shelter decker, and should be
reminded that any scuppers led from the shelter tween-decks to the
bilges (other than the machinery space bilges) should be permanently
closed by riveted plates. In his report he should indicate the exact
position of the tonnage space of the bulkheads at the forward rafters ends
of the tonnage well, giving full particulars of the hatchways on both the
shelter ^{deck} and ~~upper deck~~ (i.e. freeboard) deck
