

RD REPORT on the

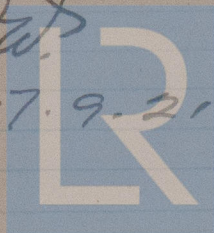

*S. S. Cristobal Colon*

This submitted the Surveyor be informed that before this case can be dealt with it will be necessary for him to furnish full particulars of the erections on the upper deck. The particulars given on his report refer to the erections on shade deck and these are not required for the freeboard computation.

The attached sketch might be forwarded for his use and he should fill in the dimensions required and give particulars of any bulkheads between the upper and shade decks.
