HOLMAN, FENWICK & WILLAN

SOLICITORS.

1, Lloyds Avenue

Fenchurch Street,

LONDON, 2nd January,  
1939.

The Secretary,  
Lloyd's Register of Shipping,  
E.C.3.

Dear Sir,

S.S. "QUARRINGTON COURT"

In connection with the above vessel and the proceedings which are pending in New York arising out of claims formulated against her Owners and the Time Charterers, the Isthmian Steamship Company, both our New York Lawyers and those instructed on behalf of the Time Charterers, are desirous of obtaining testimony from Mr. J. S. Heck your principal Engineer Surveyor in New York. They feel that his evidence would unquestionably have great weight in their Courts and we understand that Mr. Heck would be willing to assist subject to the necessary permission being obtained from London.

We have not been instructed as to the nature of the evidence required from Mr. Heck, but of course it would be understood that this would be confined to questions either of fact or procedure and in all probability on the lines of the evidence recently given by your Mr. Bladden in London.

We shall, accordingly be much obliged if you will let us know whether the necessary permission can be given for Mr. Heck to  
P.T.O.
