

S.S. "QUARRINGTON COURT"

---

This case has been dealt with in a statement dated 19th instant. In response to a further cable Mr. McGlashan cables as follows:-

"Quarrington Court no definite request or proposal made by Owners or their Representatives that examination in dry dock be deferred until a convenient time."

This means that the Surveyor admits that the statement contained in his report, to the effect that the Owner proposed to defer examination in dry dock until a convenient time, is incorrect.

The Owners' request to have the statement in the report rectified could be met by issuing a copy with the statement in question struck through and a reference made to the cable which has now been received from the Surveyor.

It is submitted a suitable communication be addressed to Mr. McGlashan impressing upon him the necessity <sup>exercising</sup> for/greater care in framing the wording of his reports.
