Collingwood Buildings,

Newcastle-on-Tyne, I.

27th September, 1938.

Dear Mr. Parsey,

Confirming our telephone conversation of the 24th instant regarding the "QUARRINGTON COURT" I desire to say that the main injection valve lid of this vessel was renewed on my recommendation as I considered that further machining of the old lid would have tended to make it rather small to be a good fit on the valve seat.

I am, Dear Sir,

Yours faithfully,

(Sgd.) J. H. Matthews.
