 Survey Due

In November last the Gibraltar Surveyor stated the vessel was laid up, but that the Owners were preparing the main boilers for survey.

The Gibraltar Surveyor now writes that the vessel is still laid up, and that he has been informed by the Owners that he will have an opportunity to examine the boilers when an intending purchaser comes to view the vessel or when she is recommissioned.

The Surveyor adds that negotiations are in hand for her sale to Italian Owners.

The Surveyor also states that the valves and mountings were opened up for examination last month.
