

BOARD REPORT on the

"Umbaru - Project. D. Gardunga"
 Med:- 129.4' x 27.88' x 7.36'

As a full scantling ship with sheers and erections
 as measured from the plans, and assuming the
 side scuttles to be closed with riveted plates, the summer
 moulded draught is 6-6

If the side scuttles are retained, the draught will
 be limited to 6 inches below the lower edge of the
 lowest scuttle, which measures 6-0 on the plan.

draught desired 6'-0"

Copy to Mr Potts.
