

s.s. "BELGENLAND".

The 2nd S.S. No. 1 of this vessel became due in 11,33 and has not yet been completed. The Owners' application for permission to take this vessel in ballast from London to the United States (where she will be transferred to the American Flag) has received the favourable consideration of the Committee.

Capt. Rickord and Mr. Mulligan called at this Office to-day and stated that they were now considering the question of completing the Special Survey at this time in which case the freeboard renewal survey will also be held.

If the Special Survey is not completed at this time they will arrange for a general examination to be made in order that the certificate may be renewed for a short period. They will advise this Office in a day or two.

26.11.34.

Letter from owners requesting the attendance of the London surveyors tomorrow for renewal survey received today and passed on to London surveyors.
