Lloyd's Register of Shipping.

Port of BREMEN.

24th June, 1930.

This is to Certify that

G. H. C. Bahr

the undersigned Surveyor to this Society did at the request of Messrs. Deutsche Schiff-und Maschinenbau Aktiengesellschaft, Werk:-Act. Ges. "Weser", Bremen, survey during construction a Bauer-Wach Exhaust Turbine Installation for combination with the existing steam reciprocating engines of the steamer "CLAN MACKENZIE".

The materials used in the construction of the Exhaust Turbine have been made at works recognised by the Committee and tested in accordance with the requirements of the Rules and Regulations. All parts have been examined in a finished condition and were found to be sound and free from defects. The workmanship is good.

On completion the Turbine has been examined under working conditions on board in combination with the reciprocating engines and was found to work satisfactorily.

The Surveyors to Lloyd's Register

G. H. C. Bahr

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
