

s.s. "SANDGATE CASTLE"

In reply to the enquiry regarding leakage of oil fuel, the Hull Surveyors state that the survey held in May, 1937, was an ordinary docking survey, and they are unable to offer any comment on the matter.

The Board of Trade Solicitor has been advised by telephone and he has requested that a copy of the Surveyors' letter be sent to him.

It is submitted this be done.

The Solicitor advised that the opening of the enquiry has been postponed until Monday, 28th February.
