10th March, 1937.

Dear Sirs,

With reference to my letter of the 20th November last respecting the Screwshaft Survey of your Motorship "SILVERCYPRESS", I shall be obliged if you will kindly let me know what further arrangements have been made for this matter to receive attention.

I may add that the vessel's class is subject to the covering of both main engine silencers being dealt with and to 130 fathoms of 6" wire hawser being renewed. The vessel also requires to be further examined in drydock on account of grounding.

I am, Dear Sirs,

Yours faithfully,

Clerk to the  
Classification Committee.
